

Information on the Artarmon pool

8-12 Lambs Rd (entrance on Cleg St), Artarmon

Driving Directions from the East

If you are driving over the Harbour Bridge/Tunnel, heading away from the city, as you are driving along the Gore Hill Fwy you will see the "Pacific Hwy and Lane Cove Tunnel" signs. Just after that keep your eye out for the "Reserve Road Artarmon" sign and take that exit. At the lights turn left onto Reserve Rd, take a left turn into Dickson Ave and follow the road round to the right and you will be on Waltham St. Driving further along you will veer left onto Cleg St. Keep going straight at the lights, crossing over Herbert St and just before you meet Lambs Rd, turn left into the Duck and Dive driveway to park your car.

If you live locally to the Artarmon area, when you are looking us up the warehouse is located on the corner of Cleg St and Lambs Rd. Duck and Dive driveway is located on Cleg St.

Parking and Accessing the Pool

We have created 20 car spots, we understand that not everyone will be driving to the pool but should you need to the option is there.

Our parking has been designed for the convenience of the swim schoolers participating in lessons, so if you have relatives or friends joining you to view a class we ask that they find a place on the street.

Try to get parked 10 to 15 minutes before your lesson. That will give you ample time to get ready and allow for classes being taught before you to leave. Arriving over half an hour before takes a car spot off someone in the class before you.

Even if the car park is half empty, those available spots will be taken by the next class arriving for their lesson whilst you are still in the pool. As parking is precious, PLEASE, if you don't intend leaving straight after your lesson you MUST park on the street. Otherwise clients arriving for the next class may not get a parking spot. You wouldn't want this to happen to you so play fair!

Once you have parked your car, just head towards the blue door to walk through to our reception area and the pool entrance.

After your lessons we ask that you get yourself and baby sorted as quickly as possible so that you can free up the car space.

If for some reason you are not able to get into the car park don't panic! There are car spots on the street outside and you can always wait outside on Cleg Street (as if turning left into the car park) with your indicator flashing and wait for someone to exit – the road is heaps wide enough for passing traffic and there will always be someone leaving soon

Additionally another good option would be: turn right onto Lambs Rd and drive up and over the bridge, at the intersection turn right onto Francis St follow the road around until you reach the park and there should be some parking up. It's only a 3 mins walk down to the pool and a little more going back.

Changing Facilities

There are male and female changing areas with showers and toilets which are located downstairs. We have provided some changing tables in the changing rooms as well to help with sorting out bub.

Pool deck

If you decide to leave your belongings in the changing rooms, then please bring your towels upstairs to the pool deck so you can dry off before walking down the stairs. If you bring your belongings up to the pool deck there are hooks available for you to hang your stuff on.

Very Important Health and Safety requirements for this pool:

Prams: No prams, pushchairs or strollers are allowed on the pool deck as it is an OHS hazard.

Where can I store my pram, pushchair or stroller? If you have arrived by car – please don't bring your pram in. If you have walked then whatever wheels you bring bubby you can leave in reception.

Food around the pool deck: The pool hall has a no food policy.
